Professional Summary

Results-driven Computer Science student with a strong foundation in **software development, data structures, and algorithms**. Proficient in **Java and JavaScript**, with hands-on experience in **full-stack development**, including **front-end frameworks, back-end services, and database management**. Skilled in **version control (Git) and AI integration**. Seeking an opportunity to apply **technical expertise, collaborate with dynamic teams, and contribute to impactful ideas**.

Key Skills

- **Programming Languages:** Java, JavaScript, HTML, CSS, SQL
- **Tools & Frameworks:** React.js, Next.js, Node.js, Express.js, Git, GitHub, Postman, MongoDB
- **Core Fundamentals:** Object-Oriented Programming, Data Structures, Algorithms, Computer Network
- **Soft Skills:** Analytical & Logical Thinking, Collaboration, Versatility

Work Experience

Open-Source Contributor

GirlScript Foundation | May, 2024 – August, 2024

- Developed and optimized **21+ pull requests** across multiple open-source repositories, refactored code for efficiency, enhanced system performance and improved feature scalability.
- Diagnosed and resolved **critical issues in production code** and developed **modular and reusable components, maintainable features to improve functionality and readability**.

Projects

Cloud Quill | Next.js, Tailwind CSS, Convex DB, Live blocks | github.com/aryansharma220/cloud-quill

- Built a real-time document editing platform **supporting 100+ simultaneous users**, ensuring seamless collaboration.
- Streamlined document rendering logic, **reducing load times by 40%** for enhanced performance.
- Integrated Live blocks for real-time multi-user synchronization, achieving an **average latency of <100 milliseconds**.

Wander Trail | React.js, Firebase, Google Places API, Shad CN UI | github.com/aryansharma220/wander-trail

- Engineered an AI-powered trip planner **generating 20+ optimized itineraries per session**.
- Implemented Google Places API for contextual location suggestions, **improving search efficiency by 50%**.
- Designed a responsive, user-friendly interface, enhancing engagement and **reducing bounce rates by 35%**.

Heal Nav | React.js, Node.js, Express.js, Gemini API | github.com/aryansharma220/heal-nav

- Enabled **locating medical resources** and real-time support **through an AI-powered chatbot**.
- Integrated an AI-driven chatbot to reduce response time.

Education

Bachelor of Technology in Computer Science | CGPA 9.01

VIT Bhopal University, Madhya Pradesh, India | 2022 – 2026

Certifications

- Cloud Computing (Gold Tier) – NPTEL, 2024
- GitHub Foundations Certification - GitHub, 2025

Achievements

- Winner at MERNxAI Hackathon, VIT Bhopal – Secured 1st place among 70+ teams for building an AI-powered research digest platform.
- Winner at Arma Code Hackathon, IISER Bhopal – Clinched 1st place among 1000+ participants for developing an anonymous voting platform.
